

City of Long Grove Utility Rates

ELECTRIC

Winter Rates (Oct, Nov, Dec, Jan, Feb & March usage)

Residential - \$10.00 minimum charge .104 (first 700) .094 (701+)
Commercial - \$18.00 minimum charge .110 (first 300) .100 (301+)

Summer Rates (April, May, June, July, Aug, & Sept usage)

Residential - \$10.00 minimum charge .104 (first 700) .114 (701+)
Commercial - \$18.00 minimum charge .110 (first 300) .120 (300+)

Purchased Energy Adjustment (PEA)

The PEA line item that is on the utility bill stands for “Purchased Energy Adjustment”
The PEA represents the difference between what the City expects to pay for wholesale electricity on a monthly basis compared to what we actually pay for monthly wholesale electricity. The City feels this is a fair way for our customers to benefit from our fluctuating wholesale prices. We are only passing through the actual costs the City incurs.

WATER
